Mybook Studio Ii And Yosemite El Capitan

When climbed El Capitan - the 3,000-foot rock development in Yosemite National Park - without a string, the scaling star became a national sensation.. Back again in Summer 2017, however, the globe just got to take his term for it; with “,” the rivéting documentary from “Méru” co-diréctors Jimmy Face and Elizabeth Chai Vasarhelyi, Honnold's achievement gets the big-scréen closeup it should get.
